It is said that many other railroads throughout Ohio, looking into Columbus, will operate excursions on trains during fair week.

Last Erie Excursion
The last 16-day excursion to New York over the Erie Railroad will take place Aug. 26. It was announced today. The Erie has operated five excursions of a similar nature this summer, all proving successful.
Special rates have been offered and stopovers permitted. Rates of the excursions averaged about a cent a mile.

Lecture Announced
Bulletins posted in the Hocking Valley offices here today announced a lecture to be given Aug. 25, in the assembly room of the Railway Y. M. C. A., Columbus, by the bureau of explosives. All Hocking Valley railroaders, and especially those who handled dangerous articles were urged to be present at the lecture.

Gas in the Stomach Is Dangerous

Recommend Daily Use of Magnesia to Overcome Trouble Caused by Fermenting Food and Acid Indigestion

Gas and wind in the stomach accompanied by that full bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so called "acid indigestion". Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach often leading to gastritis accompanied by serious stomach ulcers. Food ferments and causes are eating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart. It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any drugstore a few tablets of Blaud's Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloated right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Blaud's Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion—Adm.

FUND SHORTAGE NOW FACES ADA, OFFICIALS SAY

Unless Levy is Increased Curtailment of Street Lights May Be Necessary

Kenton Aug. 20—An official report from the western side of Hardin County now faces the possibility of a shortage of funds with which to carry on its municipal affairs. It was revealed in a conference of the Ada village council and from C. Jones of this city, county auditor.

The present rate of 17.6 mills for the corporation will not keep the schools and municipally going as they have been in the past it was said. BIG FOUR AND ERIE ARE NAMED IN \$30,000 SUIT

Widow of W. B. Seacrest Caledonia, Rail Accident Victim, Brings Action

A \$30,000 damage suit against the Erie Railroad Co. and the Big Four Railroad was filed yesterday in Common Pleas Court by C. H. Henkel and Carl J. Gugler, counsel attorneys representing Lena Seacrest, administratrix of the estate of William B. Seacrest late of Caledonia.

Mrs. Seacrest asks \$30,000 damages from the two railroad companies as the result of the death of her husband following an accident in the Erie and Big Four yards at Caledonia Jan. 13, 1925.

According to the petition William Seacrest conductor on a local Erie freight train was fatally injured while

switching cars in the Caledonia yards. Seacrest was operating the switch between the main tracks and side tracks for the Erie freight train when a Big Four locomotive, traveling at a speed of at least 25 miles an hour backed in to him striking and fatally injuring him. Mrs. Seacrest alleges.

Blame Engineer

Mrs. Seacrest asserts that the Big Four Railroad is in part responsible for the death of her husband since her engineer taking the proper care would have seen Seacrest near the switch and warned him of the approach of the engine. She also alleges that in operating the locomotive at a speed exceeding eight miles an hour within village limits the Big Four Railroad was violating an ordinance of the village of Caledonia.

Mrs. Seacrest further holds the Erie Railroad Co. is partly responsible for her husband's death claiming that it was the duty of the company to provide a reasonably safe place for Seacrest to work and that the company should have provided rules and regulations for the movements of trains over their tracks.

At the time of his death, Seacrest was 61 years of age and was healthy and robust. His widow alleges. He was also supported by four children who were dependent upon him for their support.

The loss of damage sustained as a result of her husband's death amounts to \$30,000. Mrs. Seacrest claims and asks judgment for that sum.

"WESTERN" CYCLONE SMASHES LONG ISLAND LANDSCAPE

After crossing over New York City harmlessly, a regulation "kansas" style cyclone descends on Long Island and smashes things up indiscriminately. The photo shows a house at Sea Cliff under which two men were buried until rescued by police. A garage near here was blown away but the car within it left undamaged.

-o- The New Book -o-

BY FRANCES JENNINGS

MANTRAP! Sinclair Lewis' most recent novel is one of the best he has produced. Although it does not read like his "Babbalanza" or "Arrowsmith," it has the same quality of "Man Street" and has won the same kind of popularity and has added another laurel to the crown of Mr. Lewis' already many.

Mantrap deals not with the novel life of the city nor yet with the hard drum of life of a small western town, as have been the scenes of so many of Mr. Lewis' novels, but is set in an entirely new atmosphere—the north.

However, the deliciously real characters which can come only from the pen of such an artist as Mr. Lewis are the predominant feature of the book. Though the story is a man of the city type, finding his way on edge from being overworked in a small town to one of his acquaintances in our hearing and

all too natural character. When Woodbury, thus, does Mr. Lewis' classic character from the familiar things of the cities and carry him off to the northern wilds.

Alcena had not required the ways of the north. She retained her love of dress and good times and never forgot the city ways. Alcena is a lovable character. She is an unusually well drawn character, the more interesting for being the common type out of their native surroundings. Although Prescott cherishes the friendship of Joe as he never had another, he finds the charms of Alcena irresistible and when he leaves the cabin in search of Woodbury, his conscience having persistently persuaded him to do so, Alcena who has become still more disaffected with her companion.

The standing and half-raising adventure which result here all the ear marks of the most exciting northern stories.

The ending? Truly Sinclair Lewis' Mr. Prescott, the most natural character of the book returns to his

RUSSIAN COUNT PLAYS HORN IN CIRCUS BAND

Takes Long Drop from Position as Nobleman and Generalship in Army

Waukegan, Ill., Aug. 28.—From the pomp and power of a Russian nobleman position and a generalship in the Little Father's force to that of a musician in the circus band is a long drop, but a necessary one for Count Zouboff, who told his tale to Sam Glass, a merchant while in this city. Glass

know the count in the czar's realm Zouboff's full name is Gregory Nikolaevich Graf Zouboff the name Graf signifying his rank. Surely I would like to better my position in the world," Zouboff said. However, I have no choice in the matter. But still I am fortunate in a way as there are many others of my country in former days who I am sorry to say are not doing as well as I. In fact thousands of them are going out a piteous street in the cities of France and England. Anselma is an amazing country and it is my desire to learn the English language and American ways well enough to obtain a better position if he and remain here.

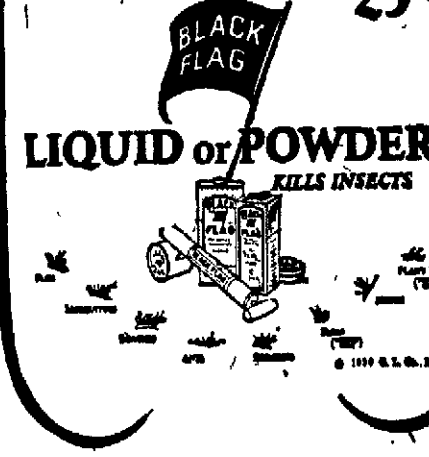

Wipe them out to the last living one!

DON'T let one fly, one mosquito, one roach live in your house 5 minutes! BLACK FLAG kills every single one of 'em—leaves no survivors. It's the deadliest insect-killer ever discovered!

BLACK FLAG kills till there isn't a bug left in the house to kill. That is thoroughness! The pests strangle—all of them! They breathe BLACK FLAG and die—all because of a secret, vegetable ingredient which is the surest death to bugs ever discovered. But it is absolutely harmless to humans and animals.

This secret ingredient is sure death to every kind of bug which roams into the home. Fleas, roaches, ants, bedbugs, moths—it rids a place of these pests. Try BLACK FLAG in the form you prefer—liquid or powder. At drug, grocery, hardware and department stores. Powder is 15c up. Powder Gun, 10c. And just look below and read the lowest liquid prices you ever saw. Compare them.

REPORTED STEEL TRADE CUT ALARMS MARKET
Decline in Mill Operations Follows Announcement on August Orders
New York, Aug. 20.—Reports of a sharp cut in output production by the principal steel companies and indications of a further curtailment within the next few weeks threw a scare into the speculative stock market today and the reaction was immediate, which has been in progress since Wednesday, raised momentum.
The decline in steel mill operations follows logically the recent report of Judge Gary and the Iron Age, in which it was pointed out that a considerable volume of the quick delivery business covered in August would have been curtailed in the fall. This increase in confidence looked for by some of the steel authorities to come from the railroad companies, which already have sent in requisitions for a large volume of new cars and engines.
The professionals who have been steadily building up a short account were anxious for either an excuse or a reason to throw stocks on the market with a likelihood of forcing prices downward. A moderate rally has been in progress under the lead of General Motors and United States Steel, but the new gains were wiped out in those and other stocks by the swift declines which followed the flooding of the market with selling orders.
The reactionary trend of the market today resulted from two important causes: first, the inevitable profit-taking from professional and public traders and the persistent speculative selling of the professionals, ever alert to take advantage of any suspected "technical weakness" in the market following the sustained advance of the speculative favorites.
